

Dear Organizing Committee,

The conference was a successful event thanks to the main efforts of the organizers. There was a positive interaction between students, research, education and industries in the food area and of many countries, as well as junior and senior scientists.

For me, first time in Ukraine, it was a discover beauty of Kiev and of the University.

I am proud to say now that it was important for me as coordinator of the ISEKI\_Food 4 network to attend the conference and to meet Helen and Yaroslav high supporters of the ISEKI\_Food network and now my new friends, as well!

Warm regards,

*Paola Pittia*
