

# AGREEMENT

## Cooperation Agreement

Between

Deutsche Gesellschaft für Nachhaltiges Bauen (DGNB) GmbH  
legally represented by Managing Director  
Johannes Kreißig  
Tübinger Str. 43, 70178 Stuttgart

---

– hereinafter: **DGNB** –

and

National University of Food Technologies (NUFT)  
represented by the Rector, Prof., Dr. of Technical Sciences  
Oleksandr Shevchenko, acting on the basis of the University Charter  
and Coordinator - Ph.D., Associate Prof. Department of Thermal  
Power and Refrigeration Engineering Roman Gryshchenko,  
68 Volodymyrska St., 01601, Kyiv, Ukraine

---

– hereinafter: **NUFT** –

– hereinafter: **Cooperation partner** –

jointly referred to as the "Parties"

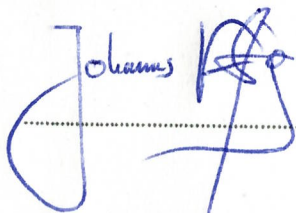

The DGNB agrees with NUFT to undertake cooperative collaboration.

### Subject of the Agreement

1. The DGNB provides, by means of a special speaker service, access to a large network of knowledge and lecturers on all topics related to the subject of sustainability. Via introductory lectures on the DGNB certification system and further events, as well as by having access to information, students are to be brought into contact with the topic of sustainable building at an early stage.
2. Within the framework of his or her teaching activity and on the basis of a core curriculum, the cooperation partner will teach selected contents of the subject in coordination with the DGNB and will thus offer students and the DGNB a platform.
3. Both Parties may advertise within the framework of the cooperation on the website or in publications, using the respective logo.
4. The partners raise no mutual financial claims under this agreement.
5. The precise scope of the exchange of information will be established at regular meetings.
